PROJECTS

Event Management System

Software Engineering I Class Project

Fall 2023

- Created and designed a functioning website that allowed for the user to register for events
- Activities included project planning, task management, and quality assurance in addition to programming and development
- Built backend system providing administrator access to add or delete events, and track attendees integrating GitHub into the solution
- Leveraged combinations of HTML, CSS, JavaScript, and MYSQL in site build

RPG Video Game

Personal Game Development Project

Summer 2022

- Developed a short multi-level dungeon crawler video game in GameMaker Studio 2
- Increased skillset by exploring new technologies and developmental strategies

Desktop Computer Fabrication

Personal Development Project

2020-Present

- Responsible for the research, design, and assembly of multiple PCs for friends and family

WORK EXPERIENCE

CVS

Indianapolis, IN

Sales Associate

May 2024 - Present

- Provided excellent customer service, managed transactions, and greeted customers in a friendly and professional manner

Lawrence Township School District

Indianapolis, IN

Associate Technician

Summer 2022

- Provided IT support and assistance to hundreds of faculty and staff
- Diagnosed and resolved technical issues with hardware and software
- Maintained and updated computer systems and peripherals
- Assisted in the implementation of new technology initiatives to include setting up teachers with hundreds of new smart boards and Chromebooks

HONORS AND AWARDS

Eagle Scout, Boy Scouts of America

2018

- Final Eagle Project: Led twelve scouts on a 2-day project of organizing and constructing a wilderness trail at a church; achieved the rank of Eagle Scout at the age of fifteen
- Successfully completed all requirements for the extra ranks of Order of the Arrow and Firecrafter
